“ We go back to the 1950's, to when we were just young people. Life is not measured by the number of breath's we take, but by the moments that take your breath away. I pray for your family that they will find comfort in the memories that you left
I will pray for your family.

“ We go way back to to the 1950's. Life goes by so fast, we need to let our loved ones know how much they are loved while they are here. I am sure you had a good life and were not only told but show how much you were loved. At least you are with your sister now and I am sure I will be joining you before not too long.

We need to remember that life is not measured by the number of breaths we take. but by the moments that take our breath away.

My prayers are with the family.

“ *Cherrie and Ralph were our neighbors in Hueytown for years. She was the sweetest and kindest person you would ever meet. She should have done stand-up comedy because she was so funny! She was always pranking me and I fell for it every time! We never left her house or ended a phone conversation without us saying I love you! So fly high Ms. Cherrie - Heaven has a new Angel! We love you and we will miss you!*
