“ *My heart hurts.....Grady was in my family for such a long time. I have many memories of the times spent with him. He will be missed but I am glad that he is now once again happy and healthy. So happy that Kelly and her family got to make more memories while he was staying with them. His friends, family and especially his loving daughter Kelly will be in my heart and prayers at this difficult time. No matter the situation, final goodbyes are never easy.*
