“ I have known Terry since our days at McNeal Jr. High. We both graduated from Hueytown High School in 1973. Our 50th year reunion is set for August 2023, sorry we won't meet again for that. We worked at two places together, Hercules Powder Plant and for the most at the acid regeneration oxide plant for 25 years, (most recently known as Remuriate). I grieved with Terry at the passing of his brother and again for his son. We didn't always see eye to eye but I would like to think we were friends. Terry, old friend, rest in the hands of Jesus and those who went before you. The time has come to earn your just rewards.
