“ *James was my first friend here in Alabama, and his love and support of me and Becks meant so much to me. He never ceased to include her, love her, and make her feel special and accepted. She is completely devastated.*

James, my cousin, my darling friend, thank you for being your perfectly flawed self, for having a heart too big, for having a smile to light the way, and for the endless questions I hoped would never end. I love you.

Jamie was my youngest brother and I loved him very much but something happened in his life around 2018 that none of his family knew about and he turned his back on all his family and wouldn't come around us but seemed to get friends we knew nothing about. I hope he is at peace now and in heaven. I will always love him and remember him as he was before 2018. I pray for Jill and Josiah as they go on with their life. Rip Jamie
