“ This is a memory of how funny Mark is. Tim and I were celebrating our wedding when it came time to leave on our honeymoon friend and family had decorated our car a 67 mustang as we get in the car we are waving and the car starts to move when we hear "where are we going for our honeymoon" Tim and I jumped out of the car and there is Mark laughing. He scared the heck out of us we all laughed and told Mark to get out of the car . He has such a great laugh and wonderful sense of humor . He was such a a blessing
