You are gone from this physical life but I will always remember you as my best friend forever. Sorry we missed so many years seeing each other , but that's how life does us sometimes. I will never forget all of the good times we had in high school . But soon after you had to go your way and I had to go mine and our paths did not cross many times after that and I wish somehow they could have. I remember the last time we talked , it was a phone call back in the 90s . I remember that whole conversation . Just wished we would have somehow stayed in touch. I miss you . Your friend always in this life and the next where I hope to see you again . Paul Ingle
