

## MISTI DAWN JONES

October 5, 1970 - February 19, 2025

With heavy hearts, we share the passing of Misti D. Jones, who left us on February 19, 2025, while under Palliative Care at Princeton Baptist Medical Center. While words will never be enough to capture the depth of her spirit, we hold onto the memories, the laughter, and the unconditional love she shared with the world.

Born on October 5, 1970, in Birmingham, AL. Misti was a force of nature- fiercely loving, endlessly compassionate, and always the first to show up when someone needed her. Her heart knew no limits, her presence felt like home, and her laughter could light up even the darkest of days.

To her family, she was a devoted daughter, sibling, and mother. To her friends, she was a safe place, a steady hand, and the kind of person who never let anyone feel alone. She found joy in the simple things whether it was gardening, treasure hunting at the thrift store, or catching a tan

at the beach. But her greatest love of all was always for her two sons.

No matter what life handed her, she would always make it grow-whether it was a near death house plant, a home, or the love she shared with those around her.

Misti is survived by her father Joseph C. Jones; her two sons Ethen Buckner (Ariel) and Bailey Buckner; her grandchild Ezra; Her siblings Cynthia, Howard, and Rodney; as well as her 2 dogs she had so much love for- Brie and Tucker. Though her physical presence is gone, her love remains woven into the fabric of our lives, living on in the stories we tell, the traditions we carry and the love we pass forward.

A celebration of life will be held at an undetermined time where all friends and family of Misti will be welcome to share the most special memories she leaves with us.

We will miss her beyond words, but we are grateful for every moment we had. And though our hearts ache, we find comfort in knowing that love like hers never truly fades-it stays with us, always.

JF

“ Me and Misti dated for 8 years on and off, one day she called me to her new home and she said we are getting married tomorrow. I was like what? She said do you love me? And I said of course I do and she said I love you too so we're getting married tomorrow. We did and our marriage lasted a little over two years I believe with all of my heart it was because of her RA really progressed and kept her in pain. We still remained great friends always telling each other I love you. Misti is not physically here but I will always love her and I know with all of my heart we will see each other again. Misti D. Jones I love and miss you!
